Internal options

BRONZE
Front frame including shelf and rail

SILVER
Front frame with tall unit, double hanging & shelf above long hanging

GOLD
Front frame with 4 drawer unit, long hanging and double hanging

PLEASE NOTE

On a two door wardrobe if the tower unit was placed centrally you would not be able to gain full access to it as one half would always be covered by a door.

In a two door wardrobe where the tower has been specified as a central installation we will place it off- centre creating a wide section of hanging and a narrower section.

In this scenario we would always recommend double hanging on the wider side.

*The above internal wardrobe representations are for illustrative purposes only. It should be noted that in actual installations the ceiling and floor sections of wardrobe internals are left open to the room decoration.

Car Charging	Brand	Supply & Fit
